Acceptance of December Minutes

- It was asked that Dr. Nelson's location be changed from Chester to Chesterfield
- In the future, minutes should reflect the name of who makes and seconds any motion

Minutes were approved with the change.

Issues Log Follow-up

1. *Restoration schedule was provided to the members (for OUs 6, 7, & 8)*

OPEN

Today through February (7am to 4pm – contact Dr. Gootee)

Future dates: April 20, May 9, July 14, and Aug 1

2. *Question of how often OU9 area is visually inspected (versus depending just on the alarms)*

CLOSED

Visually inspected four times a day (2 visits per shift)

3. *Community Involvement Plan – review by RAB*

OPEN

On track to be reviewed by RAB in March

4. *Turning DSCR sewer line ownership over to the county*

OPEN

The sewer lines are in the process of being transferred.

The County and U.S. Army Corps are working to finalize the transfer.

5. *Cycling of water of OU9*

OPEN

This will be addressed in the MicroPact Engineering presentation detailing the system.

Mr. Jimmy Parrish indicated that a running log of all of the issues will be kept in one database.

Resignations of co-chairs

Mr. Rich McCollim resigned via email, and Mr. Rich Richezza resigned via letter. The members voted to accept the resignation of Mr. McCollim and Mr. Richezza. Ms. Janet Mauro Moe made a motion to send a letter of gratitude to Mr. Richezza. The members unanimously accepted this motion.

Election of new co-chair

The floor was opened for nominations for a new co-chair. Ms. Moe was nominated by Mr. Lonnie McCoy, and seconded by Ms. Sarah Clarke. No further nominations were made and a motion was made to close nominations. The members unanimously accepted Ms. Moe as the new co-chair of the RAB.

Horne Settlement Check Received

Mr. McCoy announced that the Rayon Park Association received the Horne Settlement check.

Quarterly Groundwater Sampling Results for OU 6

Ms. Angela McMath of MACTEC, Inc. (formerly LAW Engineering) presented sampling results in a Power Point presentation. The sampling results were from the Quarterly Groundwater Sampling Technical Memorandum – March/April 2002 Operable Unit 6.

Public Comment

Concern was expressed about contaminants being found in No Name Creek. Ms. McMath and Mr. Eric Salopek explained that the chemicals dissipate at very low concentrations when they are exposed to the air. Sampling of the creek at several points indicates non-detectable levels of the chemicals.

Continued Discussion

The issue of contaminant disposal of soil was voiced as an option for OU 2. Ms. McMath answered that although contaminant disposal is an option, it is not the only option (nor the safest or most effective). Mr. Salopek explained that the remediation and closure of the landfill site is being reviewed. Remediation and closure can help to contain OU 2 as these methods help to get rid of liquid and of the vertical and horizontal flow of liquid. Continued monitoring at OU 6 and other surrounding sites will help to confirm that contamination does not reach concerned areas.

New Issues

- Provide sampling dates for creeks.
- Provide each RAB member with copies of maps when sampling presentations are made.
- Change the bar graphs used in the presentation to not be color dependent. Add statistical trend lines if appropriate.
- Bring a better explanation of well site 28A.
- Provide the regulators comments from the 5-year review.
